ALUMNI OF THE YEAR

Carol Hunter received the distinguished alumni of the year award from the Whitewater Technical Career Center at the May 12, 2010 Awards Program. She is a 1983 graduate of Brookville High School and the Connersville Area Vocational School. "This is very humbling," she said. "This award and who I am today is all because of the Vocational School. I have found success in a financial career because of what I learned here." Carol encouraged every Career Center Student to take challenges and accept what they bring. She encouraged the students not be afraid to give back to the community. WTCC STAFF TAKE THE “PLUNGE” FOR CYSTIC FIBROSIS

Recently the Whitewater Technical Career Center Health Occupation Students of America (HOSA) sponsored a fund drive that netted \$400.00 for the Cystic Fibrosis Foundation. The fourteen programs at the Career Center competed against each other in a “penny war”. The top three programs that raised the most money got to choose the teachers they wanted in the “dunk tank” at the annual student picnic on May 14th. In addition to the pennies that were collected, HOSA charged \$1.00 for three balls that were thrown at the teachers. Teachers that “took the plunge” for a good cause were: Tim Irrgang, Collision Repair; Rod Richardson, Diesel Mechanics; Dwight Grant, Construction Technology; Richard Bever, Precision Machining; Lisa Harrison, Health Careers I; Phil Morris and Ann Alcorn, Educational Assistants. The Connersville Jaycees graciously lent the Career Center borrow their dunk tank for the occasion.

Pictured below left to right are Dwight Grant, Building Trades instructor and Rodney Richardson, Diesel Technology instructor, participating in the dunk tank.
